Essentially I'm asking whether it's better to keep them on my servers, or leave them in the users filesystem for them to download. The images are usually no more than 100kb in size. A: Well, I would not open up your server directly to the public Internet. Do not expose it as Instead, expose it as This way only the user will be able to access the image. Assessing National Legal Issues The Need for a Nationwide Discussion on the Constitutionality of National Security Law A nationwide discussion on the constitutionality of national security law is needed, according to a number of legal experts. Well before September 11, 2001, the legal expert Eliot A. Cohen wrote, "We ought to explore whether the president really has the authority to order military action against any nation, and to order military action against any governmental unit of any nation, or against the government of any unit of any nation, or against any organization of any nation — at any time, and for any reason." Cohen's views – articulated in The New York Times and The Washington Post in the fall of 2001 – were supported by a number of other legal experts around the country. In 2002, as defense lawyer Charles Dunlap wrote, "It would be a terrible mistake to dismiss the 9/11 attacks as merely a criminal act – to
