Create (2) NEW! Tune your PC Free - Download @ "Tune Your PC Free" ? Tune Your PC Free Oresburg, Germany 18-Jun-2014 Udo Sorge, who created this Tuning tool, kindly sent us a thank you letter. We have posted the letter here for everyone to see . Thanks Udo! Update: We have been informed that Udo Sorge does not control this application any more thx, Best regards, Lars Tune your PC Free Oresburg, Germany 18-Jun-2014 Now, use it to get yourself tuned for free! Tune your PC Free. A free online tuner to tune your games for free. Our online tuner works with very good speed and precision.

Just input your game and your computer will be tuned for free! Our online tuner works with very good speed and precision. Just input your game and your computer will be tuned for free! It's very easy to use and fast to enter. Just input your game and your computer will be tuned for free! Free Music Instrument Tuner is a utility dedicated to professional and amateur musicians who are looking for a straightforward solution for tuning their musical instruments. Includes an appealing and user-friendly UI The installation is a quick and uneventful operation that does not take too much time and does not require any special attention from your part. Upon launch, you are welcomed by a fresh and modern interface that features various scales and a gauge that indicates the tuning frequency

Free Music Instrument Tuner is a utility dedicated to professional and amateur musicians who are looking for a straightforward solution for tuning their musical instruments. Includes an appealing and user-friendly UI The installation is a quick and uneventful operation that does not take too much time and does not require any special attention from your part. Upon launch, you are welcomed by a fresh and modern interface that features various scales and a gauge that indicates the tuning frequency. Depending on your habit or order of tuning your musical instrument, you can open and close various scales by accessing them directly from the toolbar. It

is worth mentioning that all the views are optional and that you can solely keep the ones that you actually need. Among the scales that you can bring forth, you can count harmonics' amplitude, waveform's period, Discrete Fourier Transform, statistics or the estimation of the fundamental frequencies, just to name a few. Allows you to configure the parameters of the tuning You will be happy to learn that the application enables you to save the current configuration and layout when exiting, a feature that can save you a lot of time the next time you want to tune your instrument. At the same time, it permits you to select the scale, tonality and style of the note names that you grew accustomed to. You can also customize the settings for the sound analysis by specifying the refresh

rate, notes range, window size factor, whether you want to employ sub-harmonic audibility threshold and latency. Moreover, you can look over the Frequency refinement options and define the maximum number of periods and harmonics you prefer. A useful tool for anyone playing musical instruments. All in all, Free Music Instrument Tuner is a simple-to-use application that packs several tools that can help you tune your instrument faster and overall more efficient.
