(WASD or Arrow Keys) - Movement. R - Jump Left Mouse Button - Swap Levels Spacebar - Switch Weapons Prt Scr - Save Game That's it really. Simple, but addicting in most cases. What to expect from Disparity:- Very addicting gameplay.- Original music and sound.- Hard puzzles that challenge you to unlock some secrets.- Level design that change from game to game. What not to expect from Disparity:- Insane difficulty in some levels, so use the save mechanism with caution.- A story, that I'm not even going to try to spoil it for you. _____ The game will be finished before the end of the year. WELCOME TO THE WORLD OF DISPARITY!!! Today we would like to share with you a very short teaser of the gameplay of "DISPARITY" Video Game, the development process, the marketing strategy and even a little teaser of "DISPARITY" story. Next week we will start our short and upcoming live stream introducing a few in-game videos of the game and asking for some feedback to help us define a few places we will want to improve the game design and level design. The game design is very close to the final version and we are waiting for the approvals of our legal team. Unfortunately the game is still under development and will keep evolving until the end of the year. Thank you for your patience and we hope to have you on the stream very soon. Our team consists of 5 people: a programmer, 3 artists and a composer. For our website you can read this here: You can check our youtube channel here: The game development is free for all people on our discord server: (make sure you are subscribed to our channel to stay up to date with any news and release). You can follow us on the following social networks: Subscribe to our Youtube channel for exciting news and in-game play tests, follow us on Twitter, visit our website www.disparitygame.com, on our Steam Greenlight page here: Hope you like the game and we thank you for your time and we appreciate your feedback! I've removed "Disparity" from the

What's new:

Ronin: 2072 No game is ever perfect, but Wonder Boy: The Dragon's Trap is close to it. Heck, there's so little that's wrong with it that it probably could be perfected by the time Pokémon 3rd edition comes out. And it wouldn't matter. I hate Pokémon as much as the next guy, but in a way I can embrace a game that has been flawed all along as long as there's hope for it to get better. And hey, if I can't be pleased with this game even after all these years, can there be any hope for me? What if I eventually become so obsessed with this game that I stop being able to enjoy anything else? That's a scary thought. Why? Because the story doesn't quite make sense anymore. What's the point of this game? What was there to even accomplish? Once upon a time I played through this game figuring out a weird narrative about the odds of getting embroiled in a war between technologically advanced ancient sorcerers and godlike demigods, battling other human players by capturing, training, and battling Pokémon. I stopped playing halfway through this game. Things just stopped making sense. My poor, naive Navi (in some really weird alternative-history RPG, the monsters I fought were just regular people). The clothes they wore didn't match the time period. The music and sounds were terrible. "Put down your weapon, warrior! That's your greatest enemy, and it's your obligation to defeat it." I looked at that sword pointed at me, and I laughed. How could a good guy need a sword like that? And then I died. Perpetually stuck in a beaten path World of Warcraft (2004) You're a night elf druid, and everything's going great until you leave your farm to start questing in the nearby town. Your adventure quickly turns into a hitchhiking quest, where you get kidnapped and bear-bonded to a purple crab in this randomly-generated fantasy world. Your goal is to get back home and rescue your bear. Oh, and there's a big battle against an overpowered enemy at the end, too. Or maybe I'm remembering it differently. Either way, there's just not much in this game to recommend it. The layout of

Get set for an unforgettable journey into the magical realms of a world where the only things we know about monsters are the ones we can see - or rather hear! Abdicated from a comfortable life in the human community, your once-happy life is a blight on the face of the earth. A mysterious force has laid you low, weakening your body into a shell of its former self. But, why? What do you really know about the world around you? Why won't anyone answer your questions? Is this a metaphor for your life, or does it mean something else? Your life depends on your next move. Get out there and bring back the truth. There's no time to ponder. GET ALONG.

About This Game: We have always appreciated the amazing sense of quality and genuine feel of games made by tiny, independent developers. For some reason, however, the smaller the developer, the less we play their games. So, we decided to try and help. Now, players can play the best games from tiny developers for free on our website. With games from: Foxy Games Calimero Game Studio Piquet Just 4 Doors Red Raven Games Phantasm We have also added a "Tiny Devs" section with games made by these developers. And it's free! So please, help us support these independent developers by downloading the biggest and best free games from them.

About This Game: Get ready to dive into the RPG's of RPG Maker 2003 and start leveling, fighting and making friends with the NPCs. Story: It is said that the Black King's son is destined to restore the old empire. However, it seems that the prophecy has turned out to be false. Instead, a wicked corruptor of magic has seized the throne and destroyed the empire, leaving only the living dead. Is it possible that the son of the Black King could still be in the land, fighting the corruption of magic? The destiny of the world hangs in the balance, and only one thing is certain: only one who seeks to carry on the legacy of the Black King can save it. (Developed on RPG Maker 2003)
